

On 24 February 2022, the Russian Federation launched a broad military invasion in Ukraine, which has contributed to significant internal displacement and cross-border movements.

To this moment, it is estimated that over **16,331,091¹** persons have been forcibly displaced into neighboring countries, with still more projected to move out of the country.

1,889,243¹ persons have arrived to Hungary across the Hungarian-Ukrainian border.

32,628¹ persons applied for the temporary protection status in Hungary.

STORY

As this year nears its conclusion, IOM Hungary had the pleasure of hosting a number of stakeholders who have been involved in the response to the Ukrainian emergency during the past nine months. Among them, some of IOM Hungary's donors and implementing partners participated. IOM Hungary has been supported by nine donors in the expansion of the mission and the activities developed as a response to the emergency. At the same time, IOM has benefited from cooperation with nine different actors who have contributed to support areas such as the provision of basic needs, food and non-food items, accommodation, refurbishment, and education. Overall, yesterday's event was an excellent opportunity to reflect on the year's achievements.
