

On 24 February 2022, the Russian Federation launched a broad military invasion in Ukraine, which has contributed to significant internal displacement and cross-border movements.

To this moment, it is estimated that over **16,087,565¹** persons have been forcibly displaced into neighboring countries, with still more projected to move out of the country.

1,854,278¹ persons have arrived to Hungary across the Hungarian-Ukrainian border.

32,628¹ persons applied for the temporary protection status in Hungary.

STORY

In October 2022, the new Záhony Helps Container was settled close to the train station where hundreds of people coming from Chop (Ukraine) transit every day in Záhony. This box was provided to the Municipality by IOM as part of the winterization plan. Besides being an important gathering point for all the actors involved in the protection response every day in the area, it contains a cafe and a child-friendly space usable by crisis-affected people. Although nine months have passed since the beginning of the emergency crisis, Záhony continues to be the main focal operational point at the Hungarian border.

Záhony Helps Container operative since October 2022 at the train station.
