

On 24 February 2022, the Russian Federation launched a broad military invasion in Ukraine, which has contributed to significant internal displacement and cross-border movements.

To this moment, it is estimated that over **18,379,904<sup>1</sup>** persons have been forcibly displaced into neighboring countries, with still more projected to move out of the country.

**2,182,519<sup>1</sup>** persons have arrived to Hungary across the Hungarian-Ukrainian border.

**34,248<sup>1</sup>** persons applied for the temporary protection status in Hungary.

## STORY

The Displacement Tracking Matrix (DTM) of IOM Hungary has been active since August 2022. Over the last six months, staff conducted thousands of interviews to track the displacement patterns, needs and intentions of crisis-affected people both in Budapest and in the border region. According to the report of December 2022, most of the respondents were women between 18-29 years old, and travelling in group with the intention to stay in Hungary. Among the needs assessed during the surveys, the provision of information regarding Accommodation stands out. Therefore, IOM Hungary continues to train its DTM Enumerators in order to improve its information provision assistance.
