

On 24 February 2022, the Russian Federation launched a broad military invasion in Ukraine, which has contributed to significant internal displacement and cross-border movements.

To this moment, it is estimated that over **17,923,566¹** persons have been forcibly displaced into neighboring countries, with still more projected to move out of the country.

2,117,868¹ persons have arrived to Hungary across the Hungarian-Ukrainian border.

33,603¹ persons applied for the temporary protection status in Hungary.

STORY

One of the pilot activities run by IOM Hungary is the provision of housing to crisis-affected people. The service aims to embrace a broader scope of assistance than the mere offer of shelter. Hence, IOM case workers regularly visit the beneficiaries in order to distribute food vouchers, assess their needs and refer them to other IOM operational support, partners or external aid. During the latest weekly visit, IOM's staff surprised the hosted children with teddy bears.
