

On 24 February 2022, the Russian Federation launched a broad military invasion in Ukraine, which has contributed to significant internal displacement and cross-border movements.

To this moment, it is estimated that over **14,591,968¹** persons have been forcibly displaced into neighboring countries, with still more projected to move out of the country.

1,628,304¹ persons have arrived to Hungary across the Hungarian-Ukrainian border.

31,290¹ persons applied for the temporary protection status in Hungary.

STORY

IOM provided heated containers for the Záhony railway station to ensure a safe reception space for arrivals from Ukraine in the upcoming cold season. A children's corner was set up in one of the containers to provide a welcoming environment for young beneficiaries. Last week, IOM colleagues also met with local representatives and civil partners in Záhony and villages at the border area to collectively prepare for winterization and plan for contingency resources.
